Executive Summary: 2025 commission revenue lost at **100%** daily occupancy below 2025 max allotment totaled **$7,291,145.89** across **94,094 RN**. **Top Areas: Uluwatu** (**$1,800,393.33**; **24.69%**), **Nusa Dua** (**$1,469,333.44**; **20.15%**), **Seminyak** (**$1,273,259.14**; **17.46%**), **Jimbaran** (**$1,175,724.17**). **Benchmarks: M1** (Act Occ >80%): **$7,357,279.02** · **M2** (Idx >0.80): **$7,363,730.52** · **M3** (Peak Only): **$7,180,203.27** · **M4** (255 Htl): **$12,534,341.70**.

1. 2025 Forgone Commission Revenue Opportunity per Bali Area

Allotment Bottleneck: Under the 2025 commission model, hotels cap daily OTA allotment during peak demand despite larger annual capacity. Evaluating all **157** recap hotels (**467** rooms; **1 USD = IDR 17,000**) using peak prices when area occupancy exceeds **80%** and normal prices otherwise reveals **94,094** forgone RN and **$7,291,145.89** in lost commission.
Peak Share: 98.17% of volume (**92,369 RN**; **$7,180,203.27**) occurred on peak days vs. **1,725 RN** (**$110,942.61**) on normal days. **Uluwatu** led at **$1,800,393.33** (**16,599 RN**; top hotel *Manik Pecatu* **$311,472.44**).

Submarket Share & Target Rationale: As shown in the doughnut chart, four coastal submarkets—**Uluwatu** (**24.69%**), **Nusa Dua** (**20.15%**), **Seminyak** (**17.46%**), and **Jimbaran** (**16.13%**)—account for **78.43%** (**$5,718,710.08**) of forgone commission and **68.04%** (**64,027 RN**) of forgone room nights. High-ADR cliff and beach resorts in Uluwatu (**$108.46** lost commission/RN) and Nusa Dua (**$90.30**/RN) justify pre-buy blocks paid by **Jan 31, 2026**.

CALCULATION STEPS & ASSUMPTIONS

1. Sold Rate Modifiers (Base = 80%):
• **+3%** near Seminyak Village Mall, Ubud Art Market, or Melasti Beach (<5 km).
• **+5%** if Unsold Stock Refundable = Yes.
• **+2%** if Review > 8.60; **-2%** if < 7.30.
2. Sold RN: Purchased RN × Adj. Sold Rate.
3. Gross Booking Value (GBV): Sold RN × Avg. Peak Selling Price ($ USD).
4. Pre-Buy Revenue (Margin USD): GBV − Total Pre-Buy Purchase Cost.
5. Commission & Uplift: Comm. Rev = GBV × Comm.%; Uplift = Pre-Buy Rev − Comm. Rev (FX: **1 USD = IDR 17,000**).
