FY2027 NON-STANDARD BUDGET ADJUSTMENT SUMMARY

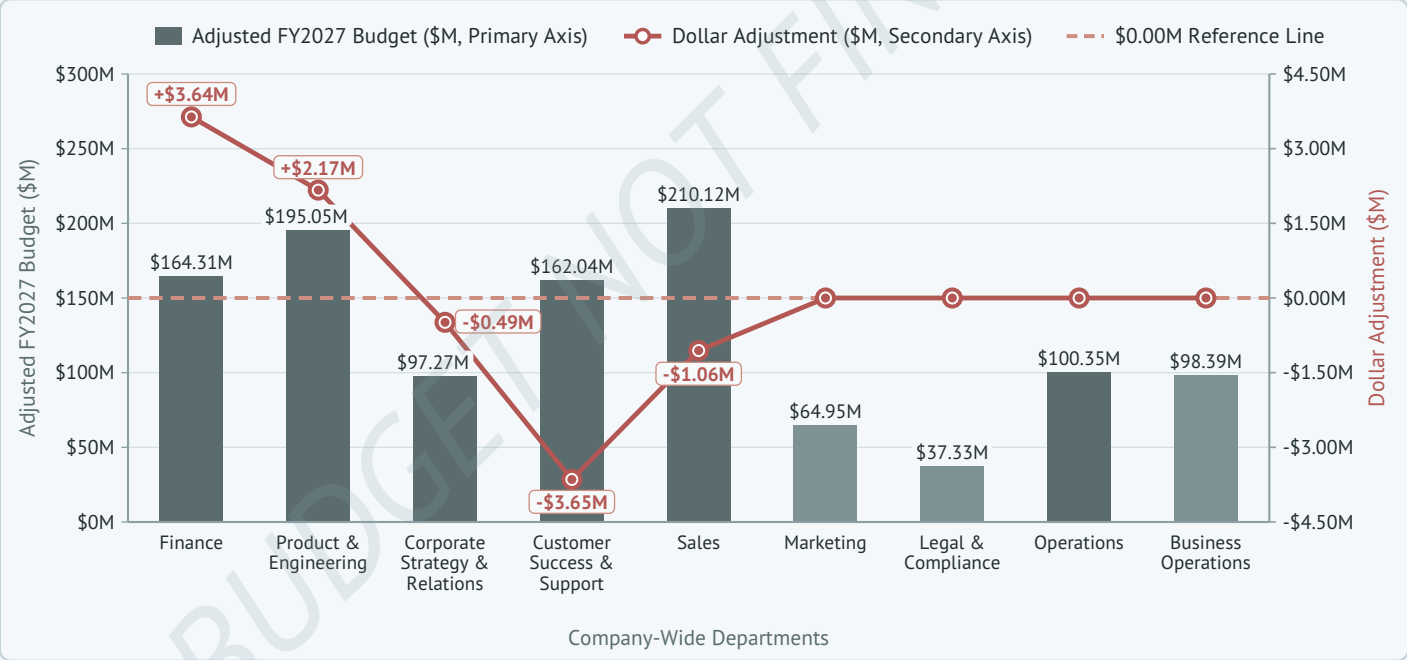

Analysis as of August 23, 2026 | FY2027 Baseline CapEx Budget (v37) | Prepared by FP&A

INTRODUCTION & IN-SCOPE DEPARTMENTAL OVERVIEW

Per the *Non-Standard Budget Adjustment Conventions*, all six departments included in the *FY2026 YTD Departmental Overview* were considered for non-standard FY2027 budget adjustments as of **August 23, 2026**: **Finance**, **Product & Engineering (P&E)**, **Corporate Strategy & Relations**, **Customer Success & Support**, **Sales**, and **Operations**. The remaining three company-wide departments—**Marketing**, **Legal & Compliance**, and **Business Operations**—were not included in the FY2026 YTD Departmental Overview and receive no adjustment. This evaluation uses only the latest confirmed sources as of August 23, 2026: the Q2 2026 re-evaluation recorded on August 23, 2026 updating **Sales**'s FY2025 performance rating to **7.6/10**, and the quality-controlled **2027 Project Roster V1** (August 21, 2026, *QC Passed*), excluding the unconfirmed August 23, 2026 Roster V2 proposal draft (*Do Not Use – Pending Stakeholder Reviews*).

Applying the primary color-coded pathways of the *Departmental Budget Adjustment Framework* (prioritizing categories from top to bottom when multiple criteria apply): **Finance** (8.5 rating; $10.0M over YTD budget; 4 critical & 1 high-priority projects) qualifies for **+2.50%**; **Product & Engineering** (7.2 rating; $61.1M over YTD budget; 2 critical & 4 high-priority projects, satisfying the top-priority 6+ critical & high-priority threshold) qualifies for **+1.25%**; **Corporate Strategy & Relations** (5.6 rating; $4.0M under YTD budget; 4 critical & 1 high-priority projects) receives **-0.50%**; and **Sales** (7.6 rating; $25.2M over YTD budget; 0 critical & 2 high-priority projects) receives **-0.50%**. Under secondary rules for departments outside pre-defined pathways (as departments trending >$25M over YTD budget cannot request an adjustment), **Customer Success & Support** (9.1 rating; $97.1M over YTD budget, >$50M threshold) receives **-2.50%**, while **Operations** (8.6 rating; $26.9M over YTD budget) stays at baseline (**0.00%**). Per leadership guidance as of August 23, 2026, five excluded teams—**Accounting** ($15.15M), **Data Warehousing** ($19.49M), **Off-shore Customer Support** ($19.88M), **General Support (Internal)** ($16.27M), and **Legal & Compliance** ($37.33M)—are exempt from FY2027 budget concessions or penalties.
